

CAD Bylaws Committee Notes
April 8, 2009

We had the opportunity to review the 2001 by-laws and history of the CAD functions and by-laws changes in our initial meeting. The committee generally is in favor of sticking to the 2001 by-laws with the following changes for consideration:

- Background check on candidates for the Board
- Rotation of meeting sites
- incorporate technology access/opportunities for business purpose
- Newsletters/internet ??

We, the committee, would like to hold a forum(s) with the community to learn what the community's perspectives and ideas are and whether or not they support CAD as a membership organization.

Our next by-laws committee meeting will be at 6:30 pm on Wednesday, April 29th, at Starbucks in the REI store in downtown Denver. Development of the survey to the community and forum planning are the only agenda items I have at this point.

Please let me know if you cannot make it to the 29th meeting.

Enjoy the spring snow!

Thanks,
Julie
